A Brief Story About The Company

ABOUT US

TRAIDEAS is a software development company and tech consultancy agency. We specialize in web, mobile, and application development, as well as data analysis, automation, machine learning, and AI-related work. Founded in 2020, we have quickly become one of the leading tech companies in Bangladesh, with a diverse portfolio spanning government, local, and international projects across industries like health, legal, governance, apparel, education, and agriculture.

We are committed to providing our clients with the highest quality software solutions and tech consultancy services. Our team of highly qualified engineers and top-of-the-line resources allows us to deliver complex technological solutions that meet the unique needs of each client.

WHAT WE DO

Brief of what we actually do

At **TRAIDEAS**, we are passionate about using technology to solve real-world problems and make a positive impact on the world. We do this by innovating cutting-edge solutions, developing customized software, and transforming our clients' ideas into reality.

Innovate

We are committed to relentless innovation, driving our company to new heights of excellence and pushing the boundaries of what's possible.

Develop

We aspire to continuously develop, evolve, and grow as a company, shaping a brighter future for ourselves and our stakeholders.

Transform

Identify as many of these problems as possible but still have a relationship to each of these problems so that the work will be more focused on one topic.

EXPERTISE

Web & Mobile Application Development

We offer comprehensive services in web and mobile application development, leveraging cutting-edge technologies to create user-friendly and innovative solutions for businesses and individuals.

Tech Consultancy

We provide tech consultancy services that involve offering expert advice, guidance, and solutions to businesses and organizations in the rapidly evolving field of technology, helping them leverage innovations and make informed decisions to achieve their goals.

Automations using Machine Learning & AI

Automation's using Machine Learning & AI streamline processes, optimize decision-making, and enhance efficiency through data-driven insights and intelligent algorithms.

Data Analysis

Our data analysis expertise empowers businesses to harness valuable insights from their data, driving informed decision-making and strategic growth.

THE PROCESS

We believe that the key to success is collaboration. We work closely with our clients to understand their needs and develop solutions that are tailored to their specific requirements. We also foster a culture of innovation and creativity, which allows us to come up with new and innovative solutions to our clients' challenges.

Our process is designed to ensure that we deliver high-quality solutions that meet the specific needs of our clients. We start by understanding their requirements and goals. Once we have a good understanding of their needs, we develop a customized solution that is tailored to their specific requirements. We then work with our clients to implement the solution and provide them with ongoing support.

PORTFOLIO

CCMS - CONSUMER COMPLAINT MANAGEMENT SYSTEM

Client - Directorate of National Consumer Rights Protection

The Directorate of National Consumer Rights Protection, a pivotal quasi-judicial government department, is dedicated to diligently addressing consumer grievances related to goods and services. Situated in Dhaka with local offices in every divisional city of Bangladesh, this agency is a vigilant guardian of consumer rights. Committed to upholding fairness and justice in the marketplace, it offers a vital channel for consumers to seek resolution and redress. Traideas proudly supports this mission and has implemented the Consumer Complaint Management System (CCMS) to efficiently manage consumer concerns, ensuring their rights are protected.

PORTFOLIO

RICE LEAF DISEASE DETECTION

Client - Bangladesh Rice Research Institute (BRRI)

TRAIDEAS with the collaboration BRRI developed a "Rice Leaf Disease Detection" system. we integrated Node.js for the backend and React for the frontend to tackle the critical issue of rice crop management. Our journey started with meticulous data collection and preprocessing, establishing a diverse and standardized dataset. By harnessing Node.js and Express.js, we constructed a resilient server infrastructure featuring APIs for image uploads, model inference, and result retrieval. On the frontend, React streamlined the creation of an intuitive user interface, enabling seamless user interactions with the system.

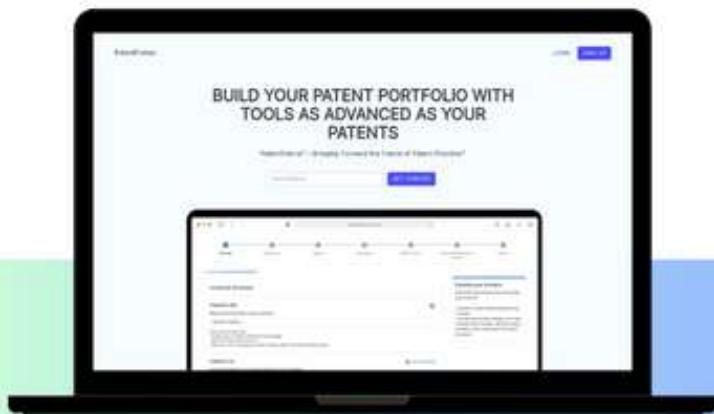

PORTFOLIO

Our highly experienced team at Traideas excels in diverse fields, from tech consulting to development and data analysis, and their varied hobbies bring a refreshing blend of expertise and camaraderie to every project.
